

CERTIFICATE OF ACHIEVEMENT

Presented to

Jumaana Aslam

for securing 3rd Place in the

The Data Fusion Challenge

The Data Fusion Challenge 2025 tasked participants with solving a critical perception problem for autonomous vehicles using multi-sensor data. Your outstanding performance in processing and fusing LiDAR and camera data across vehicles showcased impressive technical expertise, teamwork, and a forward-thinking approach to collaborative perception. Your work in addressing occlusions and inconsistencies set a new benchmark for innovation in autonomous driving safety and awareness.
